# AI Manifesto Workshop

## for direction

*Helping leadership teams write their AI manifesto: a clear statement of what AI means to the organization, what is expected of people, and how to invest.*

| AUDIENCE | FORMAT | CLASS SIZE |
| --- | --- | --- |
| Senior leaders and directors | Full day (~7 hours including breaks and lunch). In person or online. | 8 to 15 people |

## What you will do

For leadership teams who need to move beyond AI policies and governance into a clear, bold statement of intent. This full day workshop covers vision, strategy, culture, ownership, guardrails, and investment. Using diagnostic data, the Three Buckets exercise (Cut, Create, Amplify), and a culture framework (Tolerate, Don't Tolerate, Reward), your leadership team drafts, reviews, and pressure tests a manifesto that is specific to your organization and ready to share.

## After this, you can

- Diagnose your current state using CoachBay's AI Fitness Diagnostic, including the Empathy Gap between what leaders think and what employees experience.
- Define your AI vision: a clear statement of what AI means to your organization and what it enables you to become.
- Sort your company's work into Three Buckets: what to hand to AI (the Cut), what new work to start (the Create), and what to amplify (what makes your organization unique).
- Define your AI culture by agreeing on what you tolerate, what you do not tolerate, and what you reward when it comes to AI use.
- Set ownership, governance, budget, and guardrails: who is in charge, what you will invest, and where the hard lines are.
- Draft, review, and refine the manifesto as a full room, leaving with a document the team believes in.

### What you walk away with

- A pressure tested draft AI manifesto (2 to 4 pages) covering vision, strategy, culture, governance, guardrails, and budget.
- Three Buckets clarity: what to cut, what to create, and what to amplify.
- Cultural norms: what you tolerate, what you reward, and where the hard lines are.
- Clear ownership and guardrails: who runs it, how it gets updated, what gets funded, and what stays off limits.

## Optional: Pit Stops

Each Sprint can be followed by two Pit Stops (1 hour each, max 6 people) to turn learning into lasting habits.
