AI Manifesto Workshop

for direction

Helping organizations write their AI manifesto: a clear statement of what AI means, what is expected of people, and how to invest. Not a policy. A call to action.

AUDIENCE	FORMAT	CLASS SIZE
Organizations with 100+ employees	Two half day sessions (3.5 to 4 hours each), delivered one to two weeks apart. In person or online.	Session 1: 5 to 8 people. Session 2: 8 to 15 people.

What you will do

This workshop runs in two sessions. In Session 1, a small team of AI active employees from across your company uses diagnostic data, the Three Buckets exercise (Cut, Create, Amplify), and a culture framework (Tolerate, Don't Tolerate, Reward) to build the first draft of your manifesto. In Session 2, senior leaders review the draft, shape the vision, make decisions on ownership, governance, budget, and guardrails, and sign off. The result is a manifesto grounded in real AI experience and backed by leadership authority.

After this, you can

- Session 1: A cross functional drafting team diagnoses the current state using CoachBay's AI Fitness Diagnostic, including the Empathy Gap between what leaders think and what employees experience.
- Session 1: The drafting team proposes a vision, sorts the company's work into Three Buckets (Cut, Create, Amplify), defines cultural norms (Tolerate, Don't Tolerate, Reward), and drafts the manifesto.
- Session 2: Senior leaders review the draft, write or refine the vision statement, and pressure test the Three Buckets and culture sections.
- Session 2: Senior leaders make the decisions the drafting team cannot: ownership, governance, budget, and guardrails.
- Session 2: The full manifesto is finalized, an owner is assigned, and a rollout timeline is set.

What you walk away with

- A leadership approved AI manifesto (3 to 5 pages) covering vision, strategy, culture, governance, guardrails, and budget.
- Three Buckets clarity: what to cut, what to create, and what to amplify.
- Cultural norms: what you tolerate, what you reward, and where the hard lines are.
- Clear ownership and guardrails: who runs it, how it gets updated, what gets funded, and what stays off limits.

Optional: Pit Stops

Each session can be followed by two Pit Stops (1 hour each, max 6 people) to turn learning into lasting habits.
